SIDEWALKS: SNOW CLEARING AND SAFETY

Public Works oversees and maintains approximately 31 km of Town-owned sidewalks and 3 pedestrian bridges.

Winter Maintenance is completed in accordance with the Ontario Minimum Maintenance Standards, under this sidewalks are to be cleared within 48 hours that the snow accumulation has reached less than or equal to 8cm.

The Town's service level for winter maintenance on sidewalks is to maintain them to a snow packed condition. Snow packed is defined as a hard-packed snow surface. Sidewalk plows/blowers are not capable of clearing snow and ice from sidewalks to the extent that bare concrete is exposed in all conditions. The amount of scraping and sand/salt required to achieve a bare concrete service level would be damaging to the pavement, equipment, and the environment.

Snow and ice often bond to the concrete during extreme temperatures, and ice can also form on snow packed sidewalks during thaw/freeze cycles. Other factors, such as overgrown turf on the edge of the sidewalk or a buildup of residual ice and snow under wheel tracks, can cause the edge of the plow or blower to ride above the surface of the sidewalk. All affected areas are treated with sand for traction.

Edges of sidewalks may become hidden with deep snow or snow drifts. That is when the plow may cause damage to sod. In those circumstances damage may be unavoidable even with even the most experienced operator. To report sod damage, please complete the online report a concern form or call the Operations, Parks and Facilities Clerk at the Town of Shelburne 519-925-2600 extension 261. Staff will inspect the damage and make repairs in the spring. Please remember that boulevards are owned by the Town and should not have any permanent landscape features. These damaged items would not be the responsibility of the Town.

Winter weather can cause safety issues for residents. Town Staff make every effort to clear sidewalks as quickly and effectively as possible.
