No winter overnight parking  
Nov. 15 - April 15

frozen pipes?

**AVOID FROZEN WATER PIPES!**  
**With the cold weather approaching please remember to keep your Water Meter warm!**  
To protect your meter and pipes, ensure that they are kept warm; they should be insulated or located in areas that are kept warm. Keep garage doors closed to ensure pipes located there are kept warm; even a cracked garage door can allow entry of enough cold air to freeze pipes and meters.

Winter Reminders

Visit shelburne.ca

**WINTER MAINTENANCE – DON’T BURY ME**  
Please help keep your community safe and clear snow from fire hydrants and catch basins clear during the winter season.

In an emergency, every second counts. By clearing snow away from fire hydrants, they are visible and accessible to emergency services personnel.

Clearing snow away from catch basins will help to prevent street flooding and icy road conditions.

**Don’t Throw Snow on the Road**

Depositing snow or ice on or across the road is not only a safety hazard; it is also against the law. Residents must pile all snow on their property and should utilize their front yard for storing snow.

Section 181 of the Highway Traffic Act prohibits the depositing of snow and ice on a roadway without written permission from the Ministry or other road authority. R.S.O 1990, c. H.8, S. 181. Failure to comply with the Highway Traffic Act may result in a fine being issued to the property owner or contractor.

Please do not shovel, plow, or blow snow onto roads or sidewalks. If you have a snow removal contractor, make sure they are aware this practice is unsafe and not permitted.
