## **QUESTION PERIOD**

Questions relating to this tender were accepted by email only until 4:30pm on Friday August 01, 2025. Responses and clarifications requests have been provided in writing below.

## **QUESTIONS RECEIVED**

**Q1:** Is it acceptable to dispose of the removed concrete at the City landfill site?

**A1:** Contractors are responsible for disposal and sourcing a disposal site. The Town does not have a disposal site, and no dumping is permitted on Town right of ways.

**Q2:** For locations requiring tactile plates, will the City be supplying the plates, or is the contractor responsible for providing them?

**A2:** Contractors are responsible for purchasing and supplying tactile plates as required. OPSS 310.039 provided below.

**Q3:** We are hoping you can give us some insight on how you want the totals added up at the end of each section of the submission. Some are given to us in unit rates (m) and some items are lump sum, but we haven't been provided with total quantities. We are quite confused as this is not typical to other tenders of which we are accustomed to working on.

**A3:** A map and the number of panels have been provided for each work site. This can be used along with OPSS and OPSD to calculate and price out each location.
